ABOUT ME

military officer (Major) with a strong leadership foundation and a proven track record in discipline, teamwork, and performing under pressure. I specialize in Cybersecurity and Full-Stack Development, combining technical expertise with a structured, mission-focused mindset. I also have hands-on experience in AI prompt engineering and fine-tuning, enabling me to design smarter workflows and more effective AI-driven solutions. I build secure, scalable systems and deliver efficient execution.

- **Work Experience as Developer** 2019 – Present

Full-Stack Developer | Cybersecurity Technician Built advanced TypeScript websites and modern web apps. Developed Atlas AI Flutter app. Created Quran API and Quran website. commerce platform with secure integration. Software Engineering online lessons and Boot Camp. kotlin and flutter apps builder i did many apps you can check my deployment .

EXPERTISE

A balanced skill set across technology and leadership. Technically, I specialize in Full-Stack Development, Cybersecurity, automation, and Git version control. I build and deploy apps using Kotlin, Flutter, and native code, with experience in Vercel and Google Cloud. I also work confidently with multiple database types (SQL and NoSQL), including design and optimization. Professionally, I bring strong leadership, team management, quality control, and workflow improvement—supported by a military background that strengthens discipline, resilience, and consistent execution.
